Najib Doublali

Technology - SAP Consultant

With a Master's degree in Business Economics from the Solvay Economic School, complemented by professional experience as an actuary and a strong foundation in IT, I am now expanding my expertise with training in SAP. I am actively pursuing opportunities as a junior SAP consultant, leveraging my technical background and growing knowledge in this field. I excel in collaborative environments, where teamwork and shared goals drive success.

With a motivated and adaptable mindset, I am enthusiastic about tackling new challenges in the ever-evolving domains of SAP consultancy.

EDUCATION

- 09/2024 **SAP Analyst Developer @Flexso**
Ongoing Sap Training in Sap S4/Hana, Fiori, CDS, Odata Service, Process and Enterprise Structure in Procurement, Advanced Transactions in Procurement, Automated Procurement Process, Reporting and Analytics

PROFESSIONAL EXPERIENCES

- 2022 -2023 **Technology Consultant - European security concept**
- Project management
 - Configuration of Erp system
 - Software and Hardware implementation
 - User training and documentation
- In this role, I specialize in the implementation of an ERP-CRM system, both software and hardware, as well as configuring the ERP, alongside providing user training and comprehensive documentation.
- 2021-2022 **Analyst in Non-Life insurance - Axa Belgium**
- Risk modeling in Household and car insurance
 - Data management and Technical documentation
 - Reporting and presentation
- In this role, my responsibilities were data cleaning & mining, and employing machine learning tools such as GBM and GLM, coupled with expertise in data visualization and presentation, with a focus on analyzing optional warranties within Household and Auto (Non-Life) insurance.
- 01-06/2020 **Student Teaching Assistant- ULB**
Introduction to computer Science, BA3
In this role, I serve as a student teaching assistant, providing support and guidance to students in their foundational understanding of computer science concepts.
- 2014-Ongoing **Trainer - ULB/ Ephec/ UCL / ECAM**
- Mathematics and Statistics
 - Econometrics (Financial and non-financial)
 - French
- This role began during my time at university, where I had the opportunity to work with high school students. Later, as I pursued my master's degree, I extended my experience by working with bachelor's students.
